## ZOMO FLIGHTCASE P-DDJ-FLX10 PLUS NSE

The Zomo Flightcase P-DDJ-FLX10 Plus NSE is custom-made for the **Pioneer DJ DDJ-FLX10** DJ controller and comes equipped with great features. The P-DDJ-FLX10 Plus NSE adds an additional flight case to the product lineup of the popular **NSE (Night Style Edition)** by Zomo. This product has been manufactured to easily withstand the rough touring life and impresses with its **extremely sturdy quality**.

Thanks to the extra wide and black painted aluminum profiles as well as the **extra massive ball corners**, the Zomo Flightcase offers **very high durability**. To prevent the controller from sliding back and forth, the DDJ-FLX10 Equipment Case is equipped with a **sturdy internal padding** that securely protects the equipment from **shocks, scratches, or other negative impacts** and holds the controller securely in place.

With its **massive, laminated 9mm plywood**, the equipment case is particularly resistant to shocks and scratches. To protect your sensitive DJ equipment during tough touring use, the Zomo Equipment Flightcases are definitely tour-ready.

The front strip can be quickly and easily removed, providing access to the controller's connections **even when your gear is still in the case**. We recommend the **Zomo Ergonomics Adapter EA-1** as a separate accessory to safely connect your DJ headphones to the mixer.

In terms of design, the Pioneer DJ Equipment Case is also highly impressive. The elegant design in black NSE (Night Style Edition) is very stylish and **definitely an eye-catcher**. High-quality **butterfly latches** securely hold the cover in place and allow for easy opening and closing. For increased theft protection, all NSE Flightcases can be **optionally** secured with a padlock.
