ZOMO FLIGHTCASE D-LIVE-4 NSE

With the Zomo Flightcase D-Live-4 NSE, you can expand your DJ gear with a reliable partner that securely accommodates and stylishly showcases your **Denon DJ SC Live 4** DJ controller. This high-quality flight case stands out for its **robustness and elegance** and belongs to the trendy NSE Series - Night Style Edition, which is renowned for its unique aesthetics and durability.

The Flightcase D-Live-4 NSE is the perfect shield for your DJ controller, whether you're traveling by car or air. These **resilient** cases are ready to face any challenge and protect your valuable equipment from the toughest stage conditions.

The flight case is made from 9mm thick **laminated plywood**, providing extra stability. This material safeguards against impacts and scratches, effortlessly withstanding the demands of touring. The sturdy construction is further enhanced by robust **ball corners** and specially reinforced, black lacquered **aluminum profiles** that ensure long-lasting durability while adding an attractive appearance to the case.

The Zomo Flightcase D-Live-4 NSE is incredibly user-friendly. The **lid and front panel** can be quickly and easily **removed** before each gig, even with the DJ controller still inside the case. This allows you to be ready for action at any time and focus entirely on your performance.

Not only does the Zomo Flightcase excel in practicality, but it also boasts an impressive visual appeal. Its elegant **NSE Edition in black** is a true eye-catcher that commands attention and emphasizes your professionalism. The case features convenient **butterfly latches** for secure handling, allowing for easy opening and closing of the lid.

You can rely on its high durability and optimal fit, ensuring your DJ controller receives the placement it deserves—secure, protected, and stylish.

PRODUCT DETAILS

KEY FEATURES

Perfect fit: Custom-made for the Denon SC Live 4, the Zomo Flightcase D-Live-4 NSE provides optimal protection and a snug fit, keeping your DJ controller safe and well-protected.

Premium construction: Crafted from laminated 9mm plywood, the flight case offers a robust and durable structure that withstands both impacts and scratches.

Additional protection through interior padding: Soft interior padding safeguards your DJ controller from damage and unwanted influences, providing a secure and protected storage space.

Quick and easy access: The lid and front panel of the flight case can be quickly and easily removed, even with the DJ device still inside the case. This is ideal for fast access before and after performances.

Elegant and eye-catching design: With its sleek design in the black NSE Edition, the Zomo Flightcase captures attention and highlights your professionalism as a DJ.

Sturdy butterfly latches: These ensure a secure closure of the flight case while remaining easy to use. They also provide the option to attach an optional lock for additional security.

Transport-friendly: Integrated handles make the flight case easy and comfortable to transport.

Long lifespan: The flight case's sturdy ball corners offer additional protection against impacts and vibrations, contributing to its extended lifespan.
