OMNIS-DUO
PORTABLE ALL-IN-ONE DJ SYSTEM

Out of the Blue

The perfect setup for throwing DJ parties anytime, anywhere, featuring battery power and multiple audio input and output options including Bluetooth ®/MD connectivity.

OMNIS-DUO
PORTABLE ALL-IN-ONE DJ SYSTEM

HIGHLIGHTS

PORTABILITY AND PLAYABILITY: TURN ANY LOCATION INTO A PARTY VENUE INSTANTLY

Easily slide the OMNIS-DUO into a good-sized backpack and carry it anywhere thanks to the compact size, modest weight, and rounded corners of the unit. The system's 2-deck + mixer layout will look familiar to everyone and feel great when you're DJing. And there are 2 modes for the touchscreen – Light and Dark – which you can instantly switch between so you'll always be able to see the displayed information, even in bright outdoor settings.

BUILT-IN BATTERY MEANS NO POWER SUPPLY NEEDED AND LESS GEAR TO TRANSPORT

Play for up to 5 hours without plugging into the mains. When it's time to top up the power, you can connect the AC adapter or plug in a compatible power bank (45W or more) to the dedicated USB Type-C terminal. Need to keep the music going? Switching to Eco mode extends the life of the battery and the party. And if you combine the OMNIS-DUO with the new battery-powered WAVE-EIGHT speaker, which features ultra-low-latency SonicLink technology, you can enjoy wireless DJing for total freedom.

OMNIS-DUO
PORTABLE ALL-IN-ONE DJ SYSTEM

FLEXIBLE AUDIO OUTPUT OPTIONS TO PLAY ANYWHERE – THERE'S NO LIMIT

As the first-ever all-in-one DJ system to feature a Bluetooth audio output function, the OMNIS-DUO opens up brand-new possibilities. Whether you want to play on a campground, at the beach, or even connect to the sound system in a vehicle, there's no limit to the places you can hold a party. And when the time comes to play in a venue like a bar, you can use the professional XLR output, while the RCA terminals are perfect for plugging in monitor speakers at home.

BLUETOOTH AUDIO INPUT ENABLES THE CROWD TO JOIN IN YOUR SET

Never disappoint a friend again when they request a song. Instead, invite them to connect their phone to the OMNIS-DUO via Bluetooth function and you can drop the track into your set. Thanks to the system's Bluetooth Playback function, you'll have control of the audio on the deck. You can adjust the volume and EQ, apply effects to the sound, change the tempo, use Hot Cues, and scratch, just like you would with tracks loaded from a USB stick or SD card. With the OMNIS-DUO and Bluetooth audio input, you can enjoy collaborating with friends and expand your musical experiences.

PORTABLE ALL-IN-ONE DJ SYSTEM

SUPPORT FOR MULTIPLE MUSIC SOURCES TO SUIT YOUR DJ STYLE

Play your music from almost any source. USB Type-A drives and SD cards can be plugged straight into the OMNIS-DUO, as well as a PC/Mac via the USB Type-C terminal if you want to use rekordbox Performance mode. The Wi-Fi® function means easy access to tracks on a PC/Mac, smartphone, or the cloud without a wired connection*.
Support for Serato DJ Lite is coming this summer too.

*Available with Link Export and the CloudDirectPlay feature in rekordbox for Mac/Windows or rekordbox for iOS/Android.

BRAND-NEW DESIGN THAT LOOKS GREAT IN ANY ENVIRONMENT

The OMNIS-DUO looks at home everywhere you take it – from professional events to spontaneous outdoor parties. Its new indigo color is inspired by denim jeans, a classic and hugely versatile fashion item, and the unique curves of the unit create a sleek silhouette. The printing on the top plate is minimal too, helping to create a sophisticated look.
