

V26STACKRACK STACKING FRAME FOR V26A - V26SA COMPACT ARRAY SYSTEMS

Allows V26A compact active loudspeakers to be stacked on top of V26SA active subwoofers. The frame is designed to support more than eight V26A loudspeakers. However, recommended configurations are 1 V26SA sub + 2 V26A tops, or 2 V26SA subs + 4 V26A tops. Each MF/HF loudspeaker can be angled from 0° to 8°.

This type of setup is ideal when the sound system is placed in an amphitheatre or as side-fill on medium/large stages.
