ALL-MESH DIGITAL DRUMKIT

HIGHLIGHTS

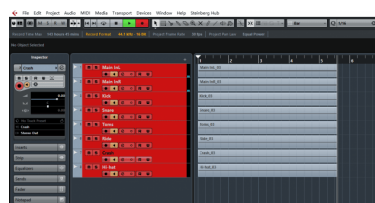

NEWLY DESIGN 10" MESH PAD, MORE COMFORT AND IMPROVED REALISM

DM-310 comes with newly 10" dual-ply mesh pad use on snare and floor tom. Dual zone trigger supports the head stroke and cross stick perfectly. Larger striking surface, let you get more comfortable playing.

RECORD YOUR MUSIC VIA USB AUDIO

The DM-310 sound module is also an audio interface, with the ability to send stereo audio and MIDI data to a Mac or Windows computer via USB. This lets you record discrete audio and MIDI drum tracks in any DAW, or trigger sounds from software based drum instruments for studio or live playing. 8 separate track is really friend for home studio mix.

DM-310 ALL-MESH DIGITAL DRUMKIT

GRAB AUDIO + VIDEO IN ONE SINGLE TAKE

Worried about the cumbersome equipment connections required to record drum cover videos? We have a good news for you! The AUX IN recording function of DM-310 can realize one-stop convenient recording function. It only needs a 3.5mm TRRS audio cable to record audio and video to the mobile phone at the same time.

EXPAND YOUR SET AND CREATIVITY

DM-310 have one more external Trigger In interface for you to add one more drum pad or cymbal pad. Even if you want to connect an extra kick drum to become a double kick drum set, this interface also can make your idea come true.
