10' ANNIVERSARY INSTRUMENT CABLE, GRAY, 10'

For 70 years the Stratocaster has been a beacon for players who see some of their own rebellious spirit in this revolutionary guitar. Once viewed as unconventional, the Strat is now ubiquitous – a testament to its perpetual innovation, incredible versatility and visionary design.

Celebrate the 70th Anniversary of the beloved Strat® with the 10' Anniversary Cable. A faithful recreation of the original instrument cable included as case candy with the 1954 Stratocaster®, this cable features a weathered gray PVC and vintage-correct cable end housing.
