LEVEL-UP™ TELE® WALL HANGER

Showcase your Telecaster® with the Level-Up™ Wall Hanger. Crafted from mahogany-finished wood, this uniquely shaped hanger features offset dowels to securely suspend your guitar. Designed to ensure straight hanging, the offset dowels are positioned precisely to the shape of your guitar's headstock. This distinctive fixed dowel design also allows your instrument to sit closer to the wall than standard yoke hangers, offering the illusion of floating suspension to seamlessly integrate into your space. The hangers also feature a pick holder slit on top for added convenience.
