FLIGHTCASE A-OMNI-DUO NSE PLUS

The Zomo Flightcase A-Omni-Duo Plus NSE was specially developed for the AlphaTheta OMNIS-DUO DJ Player and expands the popular Night Style Edition (NSE). This flight case offers an extremely robust construction that meets the demands of everyday touring and reliably protects your equipment. With robust materials and a well-thought-out design, it ensures maximum security for your DJ player.

Thanks to the practical butterfly snap locks, the flight case can be opened and closed effortlessly, while the removable front bar offers flexible use options during your DJ sessions. The stable construction made of laminated 9mm plywood, reinforced by strong aluminum profiles and solid ball corners, ensures a long service life and excellent protection against impacts and damage.

Visually, the flight case impresses with its stylish black NSE design, which is not only functional, but also a real eye-catcher. The inner padding prevents the player from slipping and protects against scratches and other damage. With an integrated laptop shelf up to 17 inches and practical carrying handles, the flight case is ideal for easy transport of your DJ equipment.
