

DRT-203R-C

DRUM THRONE FEATURING HYDRO-LIFT SYSTEM

Peace is well aware that drummers performances are influenced by drum thrones, such as car driving comfort depends on quality shocks. That's why every drum throne is designed to optimize drummer comfort, endurance and stability. The Hydro-Lift system, using air pressure and hydrogen gas, allow adjusting the height of the seat while the drummer is in sitting position with unmatched stability. The air shock current in Hydro-Lift's base chamber allows a slight give to the player, providing a free stress performance.

PRODUCT DETAILS

KEY FEATURES

Black flannel seat for great comfort

Seat measurements: 3"x330mm

Min height: 420mm
