

AMP SWITCH

AMP SWITCH

How about that? Select one amp, the other or both! The Diamond Amp Switch is the first A/B/Y box commercially available at a price that makes sense, that actually lets you have A, B and/or Y without sacrificing tone, ground loops, noise, signal degradation, etc. The B-out is isolated all the time, and switches are provided for Ground Lift and Phase Reverse. Will not affect your tone, and will increase the versatility of your rig!

PRODUCT DETAILS
