DURA-TONE 351 SHAPE .46 DAPHNE BLUE 12-PACK

Add some color to your sound with this 351-shaped Delrin pick.

This durable pick is crafted from extruded Delrin, in several classic Fender colors, with a matte finish for improved grip. Long-lasting and durable, Delrin has a stiffer feel than celluloid, which gives a strong, well-defined attack to every stroke. The 351 shape—our most popular—works well for any musical genre and has a traditional feel. Connecting to our past, these picks are available in the gauges we used in the late-'70s.
