

MK200

61-KEY "TOUCH RESPONSE" ARRANGER KEYBOARD

The MEDELI MK200 keyboard is perfect for aspiring musicians, but given the many functions it has, even the most experienced musicians can have fun with this instrument.

It comes with 585 sounds and 202 styles in order to cover many musical genres and to play many songs with the support of automatic accompaniments.

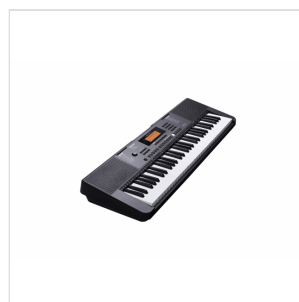

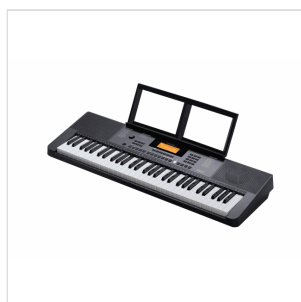

The keyboard is equipped with the "touch response" function so as to enhance the differences and nuances of each touch during a performance.

The effects part consists of 10 types of reverb and 8 adjustable chorus types so as to satisfy preferences based on the environment in which you play.

Having an arpeggiator is especially fun: playing a note, a nice musical phrase will be generated automatically.

The 157 built-in songs, in addition to being demo songs, can be used for self-learning.

With the MK200 keyboard, learning to play is now very easy.
