

EXP23

EXP COATED BARITONE GUITAR STRINGS, 16-70

D'Addario EXPs are the most natural-sounding, longest-lasting coated strings available. EXP Coated Technology starts with the highest quality wrap wire materials, precision drawn and micro-coated on our advanced proprietary machinery. Strings are then wound normally, delivering tone and feel identical to D'Addario's world renowned acoustic strings, with a minimum of 4 times more life. You won't believe they are coated! While optimally designed for today's modern, shorter scale baritone guitars, EXP23's are also an excellent solution for deep, down-tuning on most standard acoustic guitars.

PRODUCT DETAILS

KEY FEATURES

Medium, optimally designed for today's modern, shorter scale electric baritone guitars
