

GF22

# **KGear GF22 2x2" PASSIVE POINT SOURCE COLUMN LOUDSPEAKER BLACK FINISHING**

## **GF22**

### **2x2" Point Source Column Speaker**

GF22 is an ultra compact passive 2x2" full-range point source column speaker.

Despite its very small format, GF22 delivers more bass than a standard design, much larger size speaker thanks to a bass reflex cabinet design and an optimized driver filtering. You will be surprised by how much you can get out of such a tiny element!

Sharing the same form factor of GF82 line array, the resilient ABS cabinets makes it perfect for distributed sound applications in fixed outdoor/indoor installations for music and speech in restaurants, hotels, bars, transportation facilities and retail shops.
