

RMX-1000 3IN1 REMIX STATION

RMX-1000 Remix Station is an innovative technologically advanced device for enhancing DJ performances with its ability to create and add a variety of new and unique remix effects, as well as rhythmic sampling capabilities. The RMX-1000 incorporates four remixing functions: Isolate FX, Scene FX, X-Pad FX and Release FX for simple musical arrangements with intuitive control, all accessible at the user's fingertips. The device includes Pioneer's remixbox™ editing software to enable users to customize almost every function and feature of the unit. The system can also act as a USB controller when used with the included VST/AU RMX-1000 Plug-in software.
