

1126 ELECTRIC GUITAR STRING, NICKEL WOUND, .026

Sporting a new look, our NickelSteel Electric[™] strings are the cornerstone of Dean Markley. They're used and loved by thousands of pros worldwide, and they have been for decades. Tried and true, with long-lasting tone.With nickel-plated steel hand-wound slowly over a hex core, the outer string wrap maintains100% contact with the core. The result? A string that vibrates completely for maximum sustain, creating a warm, full sound distinctive of classic rock and roll. The core-to-wrap ratio makes bending easier than other strings, too.
