

## GLOBE-410W

# 10W PENDANT CEILING SPEAKER

GLOBE-410W is a speaker designed to be hung with extreme simplicity on ceilings where in any case there are roofs, false ceilings or plasterboard structures, thanks to the low weight (about 700g).

The look is elegant, discreet and the sound quality is of a high level thanks to the 4.75" (120mm) custom woofer.

The GLOBE-410W integrates a transformer for 70V/100V lines with 2 powers, allowing the speaker to be adapted to different speaker configurations and amplifier powers.

Available in white color, but can be painted in any color.
