

RB-VD2-K

REKORDBOX CONTROL VINYL (SET OF 2) BLACK

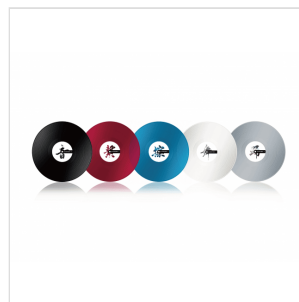

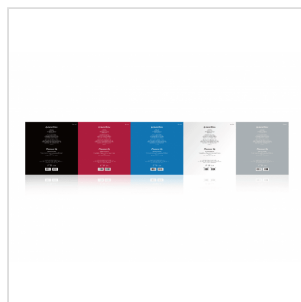

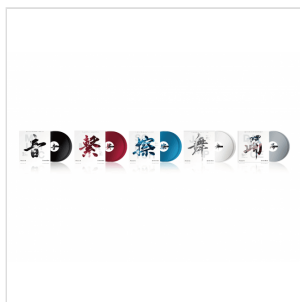

Scratch it

A range of rekordbox control vinyl sets, available in 5 fresh designs.

When using control vinyl with a rekordbox DVS setup, you can play, mix, and scratch tracks from your PC/Mac with the same feeling as if you're using analog records.

The special designs incorporate kanji – the Chinese characters used in Japanese writing – on the dust jacket of each set and the label of each record to express one of 5 key aspects of dance music: “music (?)”, “mix (?)”, “scratch (?)”, “jump (?)”, or “dance (?)”.

RB-VD2 control vinyl is sold in pairs.
