DECK STAND BERLIN MK2 - BLACK

The revised second version of the Zomo Berlin Deck Stand is an evolution of the award-winning Zomo DJ console concept. Due to the ever changing requirements of the digital DJ, the Berlin's work surface has been extended by 3cm to create even more space for DJ controllers and laptops/MacBooks. The Zomo design engineers have also improved many other details of the Deck Stand and taken Zomo's high standard of quality to another level. Many leading DJ's were consulted to realise the unique features of this Deck Stand to deliver optimized perfection. The improved Deck Stand fasteners ensure quick assembly/disassembly and a stable setup. Because the Zomo Berlin Deck Stand has only three major parts the table is set up in a few steps and takes less than 5 minutes to assemble. The cable management system improves the design further. Zomo now uses an improved method to apply the high-gloss finish to the Deck Stand, which is more resistant to scratches and wear and is much easier to clean and maintain. The Zomo Deck Stand Berlin MK2 is a unique product for all those who love something really special.
