

GO-SOUND 12AIR

12" PORTABLE PA SYSTEM WITH GO-SOUND AIR APP, 2 VHF WIRELESS MICROPHONES, TROLLEY AND BATTERY

Soundsation GO-SOUND takes another step forward and becomes **Go-Sound Air**. While keeping all features of the previous Go-Sound AMW series (battery or mains power, trolley with telescopic handle, two VHF wireless microphones, USB/SD-Card/BT Player, Mic/Line Inputs, Eco effect, 5-Band EQ, etc.), it allows now to control the multimedia player and the Aux Stereo Input via the new "Go-Sound Air" app for both Android and iOS devices (download it from Google Play® or AppStore®).

It has never been easier to play and control your favorite playlists from your mobile phone: just connect the speaker and the App via BT to your tablet or phone and it's done deal.

As for the previous AMW Series, the battery lasts from 2.5 hours (maximum volume and full charge) to 4 hours (normal volume, full charge). Both 12" and 15" versions feature a Class-AB amplifier, delivering up to 800W Peak Power (when connected to mains). The cabinet is in robust and light polypropylene with metal grid and 36mm stand hole.
