

AU-903

MULTI-FUNCTIONAL USB MICROPHONE AU-903

Maono AU-903 is a portable multifunction microphone with two selectable polar patterns (cardioid and omnidirectional).

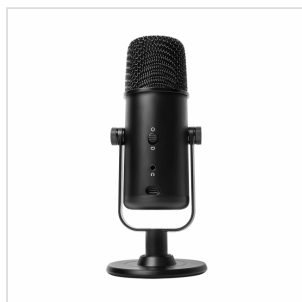

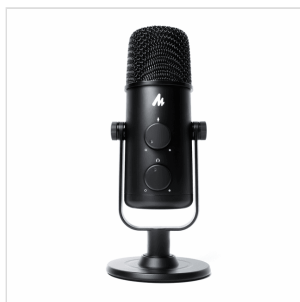

The USB output allows you to easily connect it to a computer.

It offers a perfect return of voice and instruments and has a high compatibility with other devices such as laptops, tablets, etc.

It is also partially compatible with smartphones as it requires a plug adapter for tablets (not included in the package).

The microphone comes with a USB Type-C cable for Windows and Mac OS computers.

It is also equipped with a 3.5mm headphone jack for zero-latency monitoring.
