# FOUNDRY CAST STEEL SNARE 14X5,5

---

Batterie Foundry Series Cast Steel Snare Sure, you might think that the new Foundry Series 5.5"x14" would be as shrill and piercing as a gunshot. Surprisingly enough, however, the beefiness of the 5mm shell sings right in the center of the tonal spectrum. Exploding with power and just enough bright intensity, this drum represents the perfect balance between bright attack and well-rounded control.
