CHROMONICA DE LUXE HARMONICA - TUNING C

The Deluxe version of the traditional Super Chromonica or 270, as it's often referred to due to its catalogue number, is another milestone in wooden body chromatic harmonica design. Thicker reed plates and longer reeds ensure improved response and greater volume. Assembly is with screws instead of nails, permitting easy access for all maintenance tasks necessitated by intensive use. An instrument par excellence for both traditional chromatic playing and contemporary styles.
