ZOMO FLIGHTCASE SET-30A9 PLUS NSE

030103436 sound or type u

If it comes to safely and stylishly transporting your DJ equipment, the Zomo Flightcase Set-30A9 Plus NSE is your first choice. Perfectly designed, this set provides protection for **two Pioneer DJ CDJ-3000** players and one **Pioneer DJ DJM-A9** mixer, standing out with its remarkable robustness. It withstands the toughest touring conditions and effortlessly resists damage.

The high-quality black lacquered aluminum profiles and the particularly sturdy **ball corners** not only offer amazing durability but also create a **professional and classy look**. In addition, there is an interior padding that protects your Pioneer DJ devices from any damage, scratches, or negative influences and provides them with a **secure hold**.

With its elegant and modern design in the **dark black NSE** (Night Style Edition), this Pioneer DJ flight case is more than just a functional accessory. It is a real eye-catcher. The user-friendly **butterfly latches** ensure easy opening and closing, as well as a secure fit of the lid.

Impacts and scratches stand no chance against the sturdy construction of this flight case made of **laminated 9mm plywood**. With its **removable lid** and the extra wide **pull-out laptop tray**, the Zomo Flightcase Set-30A9 Plus NSE is the perfect companion for any DJ set, whether on tour or in the studio.

No matter where you are, the flight case set makes it easy for you to quickly and securely use your equipment. All you have to do is open the lid and remove the front bar, and you're ready to rock your show. With the Zomo Flightcase, you're always ready to impress the audience!
