# ZOMO FLIGHTCASE RANE FOUR PLUS NSE

030103440 found or type u

The Zomo Flightcase Rane Four Plus NSE Flightcase is custom-made for the **Rane FOUR** controller. Zomo expands its selection with the stylish NSE (= Night Style Edition) Flightcase, adding a new equipment flightcase to the lineup. In addition to its stylish appearance, the equipment case also impresses with its **robust construction**.

Thanks to the extra strong, black-painted aluminum profiles and the **extra solid ball corners**, the Zomo DJ Case offers **exceptional durability**. The practical internal padding of the Flightcase Rane Four Plus NSE guarantees secure protection for the Rane DJ controller against **scratches, defects, or other damage**.

The stylish, advanced design in the black NSE (= Night Style Edition) complements the concept of the Zomo Flightcase, not only with incredible professional quality but also in terms of design. The helpful butterfly latches allow for easy opening and locking, ensuring a **highly secure hold** of the lid. All NSE equipment cases can also be locked with an **optional** lock.

Cigarette embers, heat, and abrasion cannot harm the Flightcase Rane Four Plus NSE, thanks to the high-quality, **laminated 9mm plywood**. Designed for the rough stage environment, Zomo equipment flightcases are naturally suitable for road and air travel.

The front strip can be quickly and easily removed, even **while your DJ gear remains in the case**.
