

## CLARITY A4BT

# PAIR OF 4" 200W STUDIO MULTIMEDIA MONITORS

CLARITY A4BT or type unknown

**CLARITY A4BT** is a pair of compact monitors that add to the well-established *CLARITY line* by SOUNDSATION.

Designed for live streaming, content creation, music production, they are also an optimal solution for home and studio recording.

CLARITY A4BT monitors are easy to set up and offer quality sound, with smooth and accurate frequency response and power up to 200W.

The connections on the rear panel of the main monitor offer 1/4" TS, RCA, OPTICAL inputs, allowing compatibility with countless devices.

A 1/8" AUX IN input and the headphone connection are positioned on the front .

The BASS and TREBLE controls let you customize the sound of the CLARITY A4BT to create just the right sound for any room.

CLARITY A4BT are equipped with the BT Audio Streaming function which allows you to switch wirelessly, transmitting audio from a smartphone, tablet, laptop or other source equipped with this function.

The MDF cabinet features a sleek, modern design with a satin black finish to make these monitors stylish and suitable for many environments.
