

DM100

PRO DYNAMIC VOCAL MICROPHONE

The SOUNDSATION microphone line has always been inspired by the needs of musicians and music lovers.

DM100 is the flagship of SOUNDSATION microphones based on dynamic technology dedicated to the voice.

DM 100 is a cardioid dynamic microphone designed to achieve high level performance both during singing and speaking.

The robust metal construction, the warm and clear vocal reproduction make this microphone an essential element for unique experiences in any type of live event, both in small / large venues and in open spaces.

DM100

PRO DYNAMIC VOCAL MICROPHONE

PRODUCT DETAILS
