# 14 X 5,5 PHOSPHOR BRONZE SNARE (RAVENPLATE HARDWARE)

Phosphor Bronze has always been a preferred material for everything from cymbals to acoustic guitar strings. Peace's Batterie Bronze snare drums speak musically, with a perfect balance between midrange sustain and high-end bark. These hand-milled shells are now offered with the option of steel, die-cast, or brass hoops and hardware. The wide range of sizes we now offer in Phosphor Bronze presents an even wider spectrum of sound for the snare drum connoisseur

## PRODUCT DETAILS

### KEY FEATURES

Batterie Custom Cast Phosphor Bronze Snare (with Raven Hardware) The Custom Cast process has further been improved to include a 3mm main shell with 5mm reinforcement walls cast into each edge. The bell-like quality the slightly thinner shell brings is music to any discerning ear, but the thicker reinforcement walls give the drum an almost unlimited tuning range. The outer shell is buffed to a brilliant shine, and the addition of our Raven-Plated tube lugs and hoops gives the drum a truly unique appearance.

CUSTOM CAST technology Phosphor Bronze Shell

4,5mm DIE-CAST Hoops - RAVENPLATE Finishes

10 DEUS Microtube Lugs

PEACE Heads
