MODELING BASS AMPLIFIER (50 W)

MYGHTY BASS 50BT is a **50 Watt class D** compact and light **modeling bass amp** with 6.5" loud speaker spotting a lot of smart functions such as **Gate, Amp Modeling, IR, Modulation EFX and Reverb.**

The combo is empowered with built in **Drum machine** and **Looper**, **Bluetooth Audio Stream**, USB for direct recording and **DI-out** for connecting to PA systems. And with the **Mighty App**, you can unlock tones of new amps, IR and effects for free.

A great choice for rehearsing, practicing, recording and even live performing when you need a powerful machine in a compact, portable and light package!
