

C-5RC

5.8GHZ WIRELESS SYSTEM FOR GUITAR/BASS

Enhanced by the latest NUX technology innovation and upgraded algorithm, C-5RC fits perfectly with all types of Electric Guitars, Acoustic-electric Guitars, Bass Guitars and Ukuleles, no matter with active or passive, piezo or magnetic pickups.

C-5RC Wireless delivers the signal on 5.8 GHz frequency range. That's a global interference-free broadcasting range you can use everywhere without a signal break.

C-5RC features remarkable 24-bit audio quality, simple 'plug in and play' operation, super-low latency (<5 ms) and a solid signal for distances up to 30 meters / 100 feet in adequate conditions. C-5RC also comes with a portable Power Case to keep the wireless units charged – ideal design for when you are on the road.

C-5RC

5.8GHZ WIRELESS SYSTEM FOR GUITAR/BASS

HIGHLIGHTS

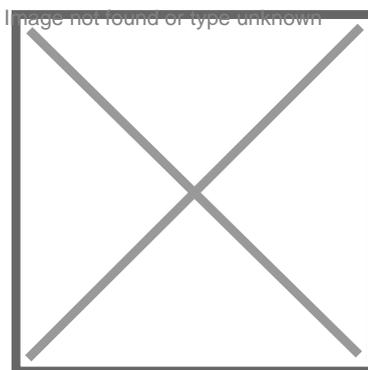

LONG LASTING BATTERY + POWER CASE

You can play for up to 4 hours non-stop and take advantage of your Power Case for 15 hours of extra power.

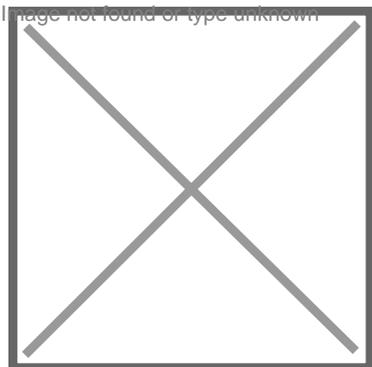

5.8GHZ BAND: LESS CROWDY!

Fewer interferences from other devices when you play at home.

C-5RC

5.8GHZ WIRELESS SYSTEM FOR GUITAR/BASS

UNIVERSAL

Works great with any guitar, bass, ukulele with active, passive or piezo pick ups.

24-BIT/44.1KHZ WITH LESS THAN 5MS LATENCY

Crystal clear guitar tone and ultra low latency: you won't miss your cable.

SIMPLE PLUG'N PLAY AND SOLID SIGNAL UP TO 30 METERS

No need for setting anything: Auto matching system will do the job for you. And then you are in for up to 30 meters of freedom.

5.8GHZ WIRELESS SYSTEM FOR GUITAR/BASS

PRODUCT DETAILS

KEY FEATURES

Crystal clear guitar tone audio @ 24-bit/44.1kHz with less than 5ms latency and Cable-tone function to preserve audio cable transmission quality

Works well with active, passive and piezo pickups with no buzzing/humming

5.8 GHz band ensures fewer interferences from other devices when you play on stage or at home

Auto matching system automatically pairs receiver/transmitter in the proper channel

Battery life: 4 hours of playing + 15 hours with Power Case

Can fit on all types of guitars, bass and ukuleles

Comes with an inbox charging/carrying case

SPECIFICATIONS

Range	up to 30 mt
Dynamic Range	108db
Operating Band	5.8GHz ISM Worldwide
THD+ Noise	<0.02% (1KHz@-10dbFS)
Frequency Response	20Hz – 20kHz
Built-in Battery Capacity	3.7V/500mA (Transmitter&Receiver)
Power Case Battery Capacity	4000mAh
Dimensions	107x25x26mm (LxWxH)
Weight	68gr
