

OB-1214

BLACK ALUMINUM DOUBLE OCTOBAN WITH STAND

The sharp metallic BARK! Peace Octabons are the perfect sonic addition for the ever-evolving drummer of today. Each aluminum shell is precision milled to a 6" diameter and cut to span in depths from 8" to 22" to provide contrast to the warmth of standard wood drums. Double Octabon packages include our Arena 860 dual tom stand for stable placement anywhere on the kit. Whether as a two-drum expansion for an existing set-up, or an addition of the entire octave (all 8 drums, tuned high C to low C,) Peace Octabons are an onslaught of percussive possibility!
