MIGHTY PLUG PRO unknown

Mighty Plug Pro is a handy silent-play gear for both guitarists and bassists, featuring various effects, Amp Modeling, and Impulse Response (IR) cabinet models.

Based on his little brother Mighty Plug, Mighty Plug Pro offers more functions, flexible block routings, and live stream applications.

You can stream Bluetooth playback, microphone signal, and guitar signal through USB with OTG onto your mobile device to do live streaming or making #short videos. For the young generation, #short on YouTube, TikTok, Instagram will be your main stage.
