

210i

SELF POWERED, DUAL 10" LOW FREQUENCY ENCLOSURE

The Venu 210i is a 600 Watt self-powered double 10" reflex-loaded low frequency enclosure which is capable of powering up to four mid high enclosures from its built-in dual 600 Watt power modules. SpeakON™ sockets are provided for ultra quick and reliable connections and a protected rear connector panel allows the enclosure to be placed against a rear wall without damaging the audio or power connections. The 210i also features DSP that provides loudspeaker control and advanced signal processing capabilities all of which can be accessed by the rear USB port. Add to this the evocative Void sound from the new range of custom designed components and it's clear that Venu is the ultimate installation series.

SELF POWERED, DUAL 10" LOW FREQUENCY ENCLOSURE

PRODUCT DETAILS

KEY FEATURES

1800 Watts of power

Capable of powering up to four mid high enclosures

2 x 10" low frequency drivers

Built-in DSP

Textured polyurethane finish, optional custom colours

Weather-resistant perforated steel grille

Applications: bar, club, lounge, hotel, restaurants, corporate and av

SPECIFICATIONS

Frequency Range	40 Hz - 150 Hz \pm 3 dB
Input	2 x 10 kohm Balanced
Power Output	1200 W (for LF) 2 x 600W @ 4ohm
DPS	Analogue Devices SigmaDSP®
Dispersion @-6dB points	Omnidirectional
Maximum Output	124 dB cont, 130 dB peak
Driver Configuration	2 x 10" LF
Connectors	2 x speakON™
Enclosure	15 mm birch plywood
Finish	Textured polyurethane

210i
**SELF POWERED, DUAL 10" LOW FREQUENCY
ENCLOSURE**

Grille	Weather-resistant perforated steel with foam filter
Dimensions (WxHxD)	676x334x530 mm
