SPD-STD
SPIDER CAPO STANDARD FOR GUITAR

SpiderCapo is a "Universal Partial Capo" which allows you to capo each string individually. SpiderCapo opens a whole new world of musical exploration and possibilities for fretted instrument players, as well as being a creative tool for songwriters. Weighing in at only one ounce, SpiderCapo protects your instrument by employing a dense leather pad in connection with guitar, bass, mandolin, banjo, and uke necks. More than a serious tool for advanced players, SpiderCapo provides countless hours of fun for beginners as well!
