MOODLINER 1430WP
14X30W RGBW 4IN1 WATERPROOF LED BAR WASHER

Centolight MOODLINER 1420WP is an Outdoor Wash Led Bar with a 25° beam angle. The light source consists of 14pcs of 30W 4in1 Led with RGBW color mixing. The DMX control (with RDM) allows you to control every single color of each LED independently, allowing extremely rich polychromatic effects. The MOODLINER 1430WP is designed for outdoor architectural applications or in all those situations where color wash effect as well as totally silent operation are required (theaters, houses of worship, museums, auditoriums, etc.).

The fixture structure is very stout and completely waterproof. The housing is made of die-cast aluminum and steel parts, with high-quality rubber gaskets for maximum isolation and resistance to time. PowerCon In/Out Power connections and DMX In/Out connections with XLR are totally waterproof.
