

EXL120+

# NICKEL WOUND ELECTRIC GUITAR STRINGS, SUPER LIGHT PLUS, 9.5-44

XL Nickel Wound, le corde D'Addario più popolari per chitarra elettrica, avvolte con precisione in nickelplated steel su un'anima a forma esagonale. Il risultato: corde di lunga durata con caratteristico tono brillante e ottima intonazione, l'ideale per la più ampia varietà di chitarre e stili musicali. EXL120+, con il suo diametro da 9,5" sul mi cantino, è il "passo avanti" ideale per i musicisti che hanno deciso di muoversi dal set con cantino 9" a quello con cantino 10". Inoltre, è eccezionale per il bilanciamento di tensione tra le varie corde. Le EXL120+ sono adatte per strumenti a scala corta.
